

SURGICAL SCHEDULE

1. The amounts shown in the following schedule indicate the maximum amount payable for the corresponding surgical operation. If the surgical benefits shown in the Benefits Schedule of this Policy is greater or less than US\$1,000, the limits for the listed procedure shall be proportionally increased or decreased.
2. The amounts set out in the Surgical Schedule is the amount the Company will pay to the Insured Person in respect of his costs to the Surgeon for each particular operation.
3. Anaesthetist's fees, (unless otherwise stated in this Policy) shall be payable in addition to Surgeon's Fees. The benefits payable shall be the lesser of:-
 - (a) 35% of the amount payable for the surgical operation; or
 - (b) the fees actually charged.
4. If an operation is not listed in the schedule, the Company shall pay the amount payable for an operation listed in the schedule which the Company considers to be similar.
5. If more than one surgical procedure is performed through the same incision, payment will be made only for the procedure with the higher amount payable.
6. If more than one surgical procedure is performed at the same surgical session through different incisions the Company will pay:
 - (a) 100% fees for the procedure for which the greatest fee is payable;
 - (b) 50% for the next most costly procedure; and
 - (c) 25% for the third and subsequent most costly procedures.

	Per 1,000 of Schedule
ABDOMEN AND DIGESTIVE SYSTEM	
Abdomen, exploratory laparotomy, celiotomy.....	162.50
exploration, retroperitoneal	180.00
Peritoneum, abscess, drainage	170.00
Anus, Abscess, incision and drainage	35.00
Fistulectomy, subcutaneous	42.50
Submuscular	140.00
Fissurectomy, with/without sphincterotomy	77.50
Hemorrhoidectomy, external, complete	92.50
internal and external, simple	112.50
Appendix, Abscess, incision and drainage.....	115.00
Appendectomy	145.00
Biliary Tract, Choledochotomy/choledochostomy, with/without cholecystotomy	252.50
Cholecystectomy	205.00
with open exploration of common duct.....	262.50
Cholecystotomy or cholecystostomy	185.00
Endoscopy: Anoscopy, with collection specimen.....	10.00
Colonoscopy, beyond splenic flexure.....	105.00
with removal polyp	177.50
Esophagoscopy with collection specimen.....	57.50
with biopsy, one or more.....	62.50
Esophagogastrosopy, with collection specimen	67.50
with biopsy, one or more.....	72.50
Gastroscopy, with collection specimen	55.00
with biopsy, one or more.....	62.50
Esophagus, Esophagotomy, cervical approach, with/without removal foreign body	207.50
Esophagectomy, resection with gastric anastomosis.....	475.00
Diverticulectomy, esophagus or hypopharynx, cervical approach.....	212.50
Esophagoplasty, with repair of tracheo-esophageal fistula.....	312.50
Intestines, Duodenotomy	235.00
Enterolysis, with acute bowel obstruction	235.00
Enterotomy, with exploration/removal foreign body, small bowel.....	235.00
Excision, one or more lesions small/large bowel, single enterotomy	230.00
Enterectomy, resection small intestines	275.00
Colectomy, partial, with anastomosis	300.00
with colostomy	412.50
Tube enterostomy or cecostomy	162.50
Ileostomy.....	235.00
Liver, needle biopsy, percutaneous	22.50
wedge biopsy	162.50
hepatectomy, partial lobectomy.....	312.50
cyst or abscess, marsupialization of	235.00
Hepatorrhaphy: suture wound, simple	230.00
Mouth & Tongue, Glossectomy, partial, with unilateral radical dissection.....	350.00
total, with unilateral radical neck dissection	412.50

	Per 1,000 of Schedule
Pancreas, Biopsy pancreas	230.00
Excision lesion of pancreas.....	275.00
Pancreatectomy, with pancreatico-jejunostomy.....	350.00
whipple type	550.00
Marsupialization, cyst of pancreas.....	235.00
Pharynx, Adenoids, Tonsils, Drainage, abscess, peritonsillar.....	8.75
retropharyngeal/parapharyngeal, intra oral	37.50
Tonsillectomy, with or without adenoidectomy, age 12 and over.....	67.50
Adenoidectomy	45.00
Rectum, incision and drainage, deep supra levator/ perirectal/retrorectal abscess	77.50
Biopsy, incisional, ano-rectal wall, anal approach.....	67.50
Proctectomy, complete, combined abdominoperineal	387.50
Proctoplasty, for prolapse mucous membrane	190.00
Proctopexy for prolapse, with sigmoid resection.....	350.00
Closure, rectovesical, rectourethral fistula, with colostomy	362.50
Stomach, Gastrotomy, with exploration or foreign body removal.....	195.00
Pyloromyotomy	160.00
Gastric biopsy, by laparotomy.....	195.00
Local excision ulcer or tumor.....	235.00
Total gastrectomy, with repair by intestinal transplant.....	500.00
Sub-total or hemi gastrectomy, with vagotomy.....	325.00
Vagotomy and pyloroplasty, with or without gastrostomy.....	275.00
Pyloroplasty	207.50
AMPUTATIONS AND DISARTICULATIONS	
Arms, through humerus, with implant	200.00
Ankle, disarticulation/amputation, through malleoli, tibia and fibula.....	182.50
Finger or thumb, amputation at any joint, single, including neurectomies.....	62.50
Food, amputation, mid-tarsal or transmetatarsal.....	167.50
Forearm, through radius and ulna	150.00
Hand, transmetacarpal.....	150.00
Hip, interpelviabdominal amputation	825.00
disarticulation	500.00
Leg through tibia and fibula, with immediate fitting technique	200.00
Shoulder, amputation, inter thoracoscapular.....	500.00
disarticulation	362.50
Thigh, amputation through femur, any level.....	217.50
disarticulation at knee.....	207.50
Toe, Amputation, meta-tarsophalangeal joint	50.00
Wrist, amputation.....	132.50
BRAIN, NERVOUS SYSTEM	
Skull, burr holes, not followed by other surgery.....	120.00
burr hole or trephine for drainage intracranial abscess or cyst.....	337.50
craniectomy or craniotomy, exploratory, supratentorial infratentorial.....	487.50
exploration of orbit or decompression.....	575.00
unilateral	362.50
Elevation of depressed fracture, simple, extradural.....	275.00
compound or comminuted.....	337.50
with debridement brain and repair of dura	387.50
BRAIN: lobotomy, including cingulotomy.....	337.50
bilateral	425.00
Brain tumor, excision of supratentorial, except meningioma	500.00
meningioma	575.00
Brain abscess, excision of.....	500.00
Cyst, excision of fenestration, supratentorial.....	500.00
Brain tumor, infratentorial or posterior fossa.....	600.00
meningioma, infratentorial or posterior fossa	625.00
Lobectomy, partial or total	550.00
Hemispherectomy	675.00
Craniectomy for craniostenosis, multiple sutures	425.00
Foreign body, excision of/from brain.....	487.50
SPINE: spinal puncture, lumbar, diagnostic	10.00
for decompression	15.00
Laminectomy for exploration intraspinal canal, one or two segments cervical or thoracic	450.00

	Per 1,000 of Schedule
lumbar.....	400.00
for decompression spinal cord and/or cauda	437.50
equina, one or two segments, cervical, thoracic lumbar	362.50
Laminotomy, one interspace, for herniated disc and/or decompression root nerve, cervical.....	362.50
bilateral.....	450.00
lumbar.....	337.50
bilateral.....	425.00
Laminectomy, for herniated disc, thoracic, posterior approach	450.00
Discectomy, single interspace, cervical	350.00
Laminectomy, for intraspinal lesion, cervical/thoracic.....	487.50
lumbar.....	425.00
DISLOCATIONS	
ANKLE: closed, manipulative reduction with anaesthesia	42.50
closed or open, open reduction	200.00
distal tibio-fibular joint, closed or open, open reduction	132.50
ELBOW: closed, manipulative reduction, with anaesthesia	42.50
closed or open, open reduction	167.50
FINGERS: Metacarpophalangeal, closed, requiring anaesthesia	42.50
open, uncomplicated, manipulative.....	50.00
closed or open, open reduction	100.00
intrapalangeal joint, closed manipulative.....	12.50
open, uncomplicated, manipulative	32.50
closed or open, open reduction	50.00
HIP: traumatic dislocation, manipulative with anaesthesia	80.00
closed or open, with acetabular hip fixation.....	362.50
JAW: temporo-mandibular, simple, closed reduction	30.00
open reduction with interdental fixation	275.00
KNEE: closed, manipulative reduction, with anaesthesia	50.00
closed or open, open reduction	250.00
KNEE CAP: closed manipulative reduction, with anaesthesia	42.50
closed or open, open reduction, with/without patellectomy	200.00
SHOULDER: sternoclavicular, manipulative reduction	45.00
closed or open, acute or chronic, open reduction/repair.....	167.50
with fascial graft, includes obtaining graft.....	182.50
acromioclavicular, with fascial graft, includes obtaining graft	217.50
TOES: tarsal bone, closed, manipulative with anaesthesia.....	32.50
open, uncomplicated, manipulative	50.00
closed or open, open reduction	100.00
astragalo-tarsal joint, closed, manipulative, without anaesthesia	16.25
with anaesthesia	42.50
open, uncomplicated, manipulative.....	57.50
closed or open, open reduction	132.50
tarso-metatarsal, closed, manipulative, with anaesthesia	32.50
with percutaneous skeletal fixation.....	50.00
open uncomplicated, manipulative	50.00
closed or open, open reduction	100.00
metatarsophalangeal, closed manipulative with anaesthesia.....	23.75
open, uncomplicated, manipulative	32.50
closed or open, open reduction	67.50
interphalangeal joint, closed, manipulative, with anaesthesia.....	12.50
open, uncomplicated, manipulative	27.50
closed or open, open reduction	40.00
WRIST: radio-carpal or intercarpal, closed, manipulative reduction	42.50
closed or open, open reduction	125.00
distal radio-ulnar, closed, manipulative.....	50.00
closed or open, open reduction or repair	105.00
EAR	
Myringotomy by needle, with/without aspiration/ eustachian inflation.....	23.75
Tympanostomy (requires insertion of ventilating tube) with opening microscope, office	22.50
in surgical suite.....	57.50
Transmastoid antrotomy	160.00
Mastoidectomy modified radical, or radical, unilateral	325.00
Myringoplasty, confined to drumhead and donor area	220.00
Tympanoplasty, with mastoidectomy.....	387.50
with ossicular chain reconstruction	437.50
Fenestration, unilateral.....	375.00
Stapes mobilization	192.50
Excision aural polyp	13.75
ENDOCRINE SYSTEM	
THYROID: Thyro-glossal cyst, incision and drainage.....	10.00
biopsy, needle	20.00
cyst or adenoma, small, excision of, or transection of isthmus.....	155.00
Lobectomy, total, unilateral, with contralateral subtotal lobectomy	230.00
Thyroidectomy, total or complete	242.50
total or sub-total with radical neck resection.....	462.50

	Per 1,000 of Schedule
EXCISION, FIXATION OR REPAIR BY CUTTING OPERATIONS	
ANKLE: Achilles Tendon repair, primary	182.50
lengthening or shortening of tendon, single	117.50
repair, primary, torn or severed collateral ligament.....	167.50
both collateral ligaments	232.50
ELBOW: tendon lengthening, single	100.00
flexorplasty.....	200.00
arthroplasty, radial head, with implant	167.50
FEMUR: excision bone cyst/benign tumor.....	172.50
with autogenous graft (includes obtaining graft)	250.00
HAND and FINGERS: excision/curettage bone cyst/benign tumors, metacarpal, with autogenous graft (includes obtaining graft).....	135.00
phalanx	95.00
with autogenous graft (includes obtaining graft)	125.00
HIP: external oblique muscle transfer to greater trochanter, including graft	250.00
iliopsoas transfer to greater trochanter	337.50
muscle release, complete.....	337.50
arthroplasty with acetabuloplasty	500.00
acetabular and proximal femoral prosthetic replacement	650.00
osteotomy iliac or acetabular.....	337.50
arthrodesis, hip joint, with subtrochanteric osteotomy.....	525.00
HUMERUS: excision/curettage bone cyst/benign tumor	157.50
KNEE: suture infrapatellar tendon, primary	167.50
lengthening hamstring tendon, multiple one leg	132.50
repair, primary, torn/severed collateral ligament with or without meniscectomy	232.50
collateral and cruciate ligaments.....	300.00
capsulotomy, posterior capsular release	232.50
PELVIS: excision bone cyst/benign tumor, superficial pelvis; with or without graft	82.50
EYE	
EYEBALL: evisceration ocular contents, with implant	155.00
enucleation, with implant, muscles attached to implant.....	195.00
exenteration of orbit, with temporalis muscle transfer.....	337.50
removal foreign body, conjunctival, superficial	2.50
embedded, subconjunctival or scleral	7.50
corneal, with slit lamp.....	10.00
EXTRAOCULAR MUSCLE: repair wound	55.00
CORNEA: excision of lesion	112.50
excision or transposition of pterygium	85.00
SCLERA: fistulization for glaucoma, trephine, with iridectomy	195.00
repair scleral staphyloma, with graft	337.50
IRIS: iridotomy, stab incision	70.00
iridotomy, with cycletomy.....	312.50
LENS: removal after cataract or membranous cataract	195.00
removal lens material, aspiration technique	275.00
expression of cataract, linear	275.00
RETINA: repair retinal detachment.....	312.50
with vitrectomy, with/without air tamponade.....	437.50
prophylaxis, retinal detachment, diathermy or cryotherapy	145.00
destruction, localized lesion, retina or choroid.....	175.00
CONJUNCTIVA: incision and drainage cyst, sty.....	7.50
LACRIMAL SYSTEM: incision and drainage lacrimal gland.....	27.50
lacrimal sac.....	20.00
excision of lacrimal sac or gland - total or partial	167.50
FRACTURES	
ANKLE: single malleolus, closed, manipulative reduction.....	57.50
closed or open, open reduction with skeletal fixation	150.00
bi-malleolar, closed, with manipulative reduction	80.00
closed or open reduction with/without skeletal fixation	182.50
tri-malleolar, closed, manipulative reduction, with anaesthesia	100.00
closed or open, open reduction, with skeletal fixation posterior lip (malleolus)	250.00
CLAVICLE: closed, manipulative reduction	45.00
closed or open, open reduction, with/without skeletal fixation.....	150.00
ELBOW: comminuted, closed, manipulative reduction	132.50
closed or open, open reduction, with/without skeletal fixation.....	262.50
FEMUR: shaft, closed, manipulative reduction, age 12 and over.....	132.50
closed or open, reduction, with/without skeletal fixation, over 12	312.50

	Per 1,000 of Schedule		Per 1,000 of Schedule
distal end, medial or lateral condyle, closed, manipulative reduction	132.50	hospital	30.00
closed or open, open reduction, with/without skeletal fixation	312.50	TESTIS: biopsy, needle	6.25
FIBULA: proximal end, open, uncomplicated		incisional, bilateral	57.50
soft-tissue closure, manipulative	62.50	excision, local lesion	87.50
closed or open, open reduction, with skeletal fixation	132.50	orchiectomy, simple, unilateral	87.50
distal end, closed, manipulative reduction with anaesthesia	50.00	radical	132.50
closed or open, open reduction with skeletal fixation	132.50	PROSTATE: biopsy, needle or punch	25.00
FINGERS: metacarpal, single, closed, manipulative reduction	40.00	incisional	117.50
closed/open, open reduction with/without skeletal fixation	105.00	prostatectomy, external drainage of abscess, complicated	200.00
carpometacarpal, closed, manipulative reduction	52.50	prostatectomy, sub-total or total	287.50
with skeletal fixation	82.50	radical	375.00
closed/open, open reduction, with/without skeletal fixation	167.50	FEMALE	
phalangeal, closed, manipulative reduction	27.50	PERINEUM: abscess, incision and drainage, or biopsy	8.75
closed/open, open reduction, with/without skeletal fixation	67.50	VULVA and INTROITUS: Bartholin's cyst, incision	
intra-articular, complex, open reduction, with/without skeletal fixation	105.00	and drainage	15.00
FOOT: tarsal, closed, manipulative	32.50	marsupialization	55.00
metatarsal, closed, manipulative	37.50	vulvectomy, complete, bilateral	230.00
HUMERUS: shaft, closed manipulative reduction	82.50	radical, excluding skin graft	275.00
closed/open reduction, with/without skeletal fixation	180.00	excision, Bartholin's tumor or cyst	70.00
supracondylar or transcondylar, closed, manipulative reduction	85.00	VAGINA: colpotomy with exploration	62.50
with traction, pin or skin	150.00	biopsy, vaginal mucosa	10.00
with percutaneous skeletal fixation	167.50	colpectomy, complete obliteration	172.50
closed/open, open reduction, with/without skeletal fixation	232.50	anterior colpohaphy, repair cystocic, with/without repair urethrocele	117.50
epicondylar, medial or lateral, closed, manipulative reduction	67.50	posterior colpohaphy, repair of rectocele	92.50
closed/open, open reduction, with/without skeletal fixation	150.00	combined anterior/posterior colpohaphy	160.00
condylar, radial or lateral, closed, manipulative reduction	67.50	repair of enterocele, abdominal approach	192.50
closed/open, open reduction, with/without skeletal fixation	167.50	CERVIX UTERI: biopsy or local excision of lesion, or cauterization	10.00
JAW: mandibular, closed, manipulative reduction, with interdental fixation	132.50	trachelectomy, cervicectomy, amputation of cervix	87.50
open reduction with interdental fixation	275.00	CORPUS UTERI: endometrial biopsy, suction	11.25
KNEE CAP: open reduction	67.50	dilation and curettage (non-obstertrical)	67.50
RADIUS: shaft, closed, manipulative reduction		myomectomy, single or multiple, abdominal approach	217.50
age 12 and over	72.50	hysterectomy, total abdominal approach	250.00
closed/open, open reduction, with skeletal fixation, age 12 and over	167.50	OVIDUCT: transection fallopian tube, unilateral/ bilateral independent	140.00
RIBS: simple, 1 rib	25.00	salpingo-oophorectomy, complete/partial, unilateral/bilateral	177.50
SCAPULA: closed, manipulative reduction	47.50	OVARY: drainage of cyst(s), vaginal approach, unilateral/bilateral	67.50
closed/open, juxta-articular, open reduction, with/without skeletal fixation	200.00	abdominal approach	187.50
SPINE: vertebral process, one/more, manipulative reduction with anaesthesia cervical, open reduction and fusion, posterior approach, with local	462.50	drainage of ovarian abscess, vaginal approach	67.50
anterior approach with iliac or other bone graft	500.00	oophorectomy, with total omentectomy	207.50
TIBIA: shaft, closed, manipulative reduction, age 12 and over	100.00	HEMIC AND LYMPHATIC SYSTEMS	
closed/open, open reduction, with skeletal fixation	200.00	SPLEEN: splenectomy	250.00
TIBIA and FIBULA: shafts closed, manipulative, with/without external pinning	145.00	HEART AND CIRCULATORY SYSTEMS	
closed/open, open reduction, with/without skeletal fixation, age 12 and over	242.50	PERICARDIUM: pericardiomy for removal clot or foreign body	250.00
ULNA: shaft, closed, manipulative reduction, age 12 and over	67.50	partial resection for chronic constructive pericarditis, with bypass	625.00
closed/open, open reduction with skeletal fixation, age 12 and over	132.50	HEART: intracardiac tumor, resection with bypass	550.00
ULNA and RADIUS: shaft, closed, manipulative reduction		pacemaker, insertion with epicardial electrode	200.00
age 12 and over	100.00	repair, cardiac wound, with bypass	437.50
closed/open, open reduction, with skeletal fixation, age 12 and over	250.00	cardiotomy and removal foreign body, with bypass	500.00
WRIST: Colles or Smith type: closed, manipulative reduction, age 12 and over	67.50	AORTA and GREAT VESSELS: suture repair, with bypass	437.50
closed, complex, with external skeletal fixation/percutaneous pinning	125.00	myocardial resection	625.00
GENTRAL SYSTEMS		repair post infraction ventricular spetal defect	750.00
MALE		VALVES: aortic, commissurotomy, with bypass	500.00
PENIS: biopsy, cutaneous	10.00	valvuloplasty, with bypass	500.00
deep	21.25	mitral, commissurotomy, open, with bypass	550.00
excision penile plaque	117.50	valvuloplasty, with bypass	600.00
amputation, partial	145.00	tricuspid, commissurotomy, open, with bypass	550.00
radical	412.50	valvuloplasty or valvectomy, with bypass	550.00
circumcision, office	15.00	pulmonary, commissurotomy, with bypass	500.00
		replacement, single valve	
		double valve	725.00
		with commissurotomy/valvuloplasty one valve	825.00
		triple valve	1,000.00
		CORONARY ARTERY: anomalous ligation	312.50
		with bypass	625.00
		PULMONARY ARTERY: embolectomy, with bypass	550.00
		ARTERIES and VEINS: arterial embolectomy, carotid	207.50
		renal	337.50
		femoral poplilial, unilateral	167.50
		venous thrombectomy, iliac-femoral, unilateral	167.50
		bilateral	250.00
		Varicose, ligation/division/stripping, long saphenous, complete, unilateral	95.00
		bilateral	150.00
		short or lesser saphenous unilateral	87.50
		bilateral	135.00

	Per 1,000 of Schedule		Per 1,000 of Schedule
long and short saphenous, unilateral	125.00	2.5cm to 7.5cm.....	18.75
bilateral	187.50	7.5cm to 12.5cm.....	27.50
ligation and excision - minor veins	18.75	12.5cm to 20cm.....	35.00
RESPIRATORY SYSTEM		20cm to 30cm.....	55.00
LUNGS & PLEURA: thoracostomy, tube with		Intermediate	
waterseal	30.00	up to 2.5cm	20.00
with rib resection for empyema.....	135.00	2.5cm to 7.5cm.....	25.00
thoracotomy, limited, with biopsy lung/pleura.....	137.50	7.5cm to 12.5cm.....	35.00
major, with exploration and biopsy	177.50	12.5cm to 20cm.....	50.00
with excision-plication bullae, with/without		Complex	
pleural procedure	300.00	1cm to 2.5cm.....	50.00
with removal intrapleural/intrapulmonary		2.5cm to 7.5cm.....	87.50
foreign/fibrin body.....	212.50	TISSUE TRANSFER or RÈARRANGEMENT	
pneumostomy, with open drainage abscess/cyst	212.50	trunk, up to 10 sq. cm.....	65.00
decoratation, pulmonary	325.00	10 sq. cm to 30 sq. cm.....	97.50
pleurectomy, parietal	300.00	scalp, arms, legs, up to 10 sq. cm	97.50
pneumonectomy, total	450.00	10 sq. cm to 30 sq. cm.....	130.00
lobectomy, total or segmental.....	387.50	Forehead, cheeks, chin, mouth, neck, axillae,	
with bronchoplasty or decortication	450.00	genitalia, hands or feet ` up to 10 sq. cm.....	130.00
wedge resection/enucleation of lesion, single or multiple	312.50	10 sq. cm to 30 sq. cm	167.50
resection, pulmonary, with thoracoplasty or		eyelids, nose, ears, or lips up to 10 sq. cm	167.50
resection/reconstruction, chest wall	450.00	FREE SKIN GRAFTS: pinch, single or multiple.....	20.00
enucleation of empyema cavity, extra pleural.....	312.50	Spilt skin, trunk, scalp, arms, legs, hands, feet	
with lobectomy	450.00	up to 100 sq. cm	82.50
thoracoplasty, extrapleural resection ribs,		each additional 100 sq. cm	21.50
first stage	217.50	Face, mouth, neck, ears, eyelids, orbit, genitalia	
second stage	130.00	up to 100 sq. cm	72.00
third stage.....	87.50	Full thickness: free, including closure donor site:	
pneumothorax	17.50	trunk up to 20 sq. cm.....	67.50
NOSE: excision polyp(s), simple.....	25.00	each additional 20 sq. cm	32.50
requiring hospitalization.....	67.50	scalp, arms, legs up to 20 sq. cm	97.50
excision or surgical planning, for rhinophyma.....	167.50	each additional 20 sq. cm	47.50
excision, dermoid cyst, simple	47.50	Forehead, cheeks, chin, mouth, genitalia, neck,	
turbinate, partial/complete	32.50	axillae, hands, feet up to 20 sq. cm	132.50
submucous resection, tubinate, partial/complete.....	120.00	each additional 20 sq. cm	65.00
removal foreign body, intranasal, requiring		eyelids, nose, ears and lips, up to 20 sq. cm.....	167.50
general anaesthesia	60.00	each additional 20 sq. cm	80.00
SINUSES: lavage by cannulation (antrum puncture		PEDICLE FLAPS: skin and deep tissue	
or natural ostium) each	6.25	tube pedicle without transfer or major "delay" of large flap.....	112.50
sphenoid sinus	13.75	primary attachment, open/tubed flap to recipient site	145.00
sinusotomy maxillary, intranasal, unilateral	65.00	Intermediate "delay" any flap, primary "delay"	
radical, (Caldwell-Luc) unilateral.....	192.50	small flap or sectioning of pedicle or tubed or	
combined, three or more sinuses.....	287.50	direct trunk flap, trunk.....	145.00
LARYNX: laryngotomy, with removal tumor/		scalp, arms, legs	180.00
laryngocele, cordectomy	262.50	Forehead, cheek, chin, mouth, neck, axillae,	
laryngectomy, total, without radical neck dissection	425.50	genitalia, eyelids, nose, hands or feet.....	262.50
with radical neck dissection	650.00	BREAST: puncture aspiration of cyst, single	7.50
TRACHEA and BRONCHI: tracheostomy	77.50	mastotomy, with exploration/drainage of deep abscess	42.50
bronchoscopy, diagnostic	60.00	biopsy, needle.....	10.00
with biopsy.....	80.00	incisional	57.50
SKIN, INTEGUMENTARY, BREAST		excision, cyst/fibro-adenomal/benign tumor/	
ABSCCESS: carbuncle or furuncle, incision and		aberrant tissue/duct lesion/nipple lesion;	
drainage/puncture aspiration	6.25	male or female, 1 or more, unilateral.....	72.50
complicated	12.50	mastectomy, complete, unilateral	130.00
ACNE: marsupialization or removal multiple miiia,		bilateral	162.50
comedones, cysts, pustules.....	5.00	partial, unilateral	97.50
BENIGN LESIONS: skin tags excision, including		subcutaneous unilateral.....	162.50
anaesthesia, up to 15	7.50	radical, incl. breast, pectoral muscles,	
each additional 10	2.50	axillary and lymph nodes	300.00
other, up to 0.5cm diameter	10.00	URINARY SYSTEM	
0.5cm to 1cm.....	12.50	KIDNEY: exploration	250.00
1cm to 2cm.....	15.00	drainage perirenal or renal abscess.....	207.50
paring or curettement, with/without cauterization	6.25	nephrostomy, nephrotomy with drainage	287.50
each additional, up to 4	2.50	nephrolithotomy (removal of claculus)	257.50
MALIGNANT LESIONS: up to 0.5cm	27.50	large staghorn claculus.....	375.00
0.5cm to 1cm	40.00	biopsy, percutaneous	40.00
1cm to 2cm.....	57.50	by surgical exposure	117.50
Biopsy, skin or subcutaneous tissue, including closure, first.....	10.00	nephrectomy, including partial ureterectomy	287.50
CYST: infected or non-infected, incision and drainage,		radical, with regional lymphadenectomy	375.00
first lesion	6.25	cysts, excision of	262.50
second lesion.....	3.75	aspiration or injection of, percutaneous	35.00
each additional	1.25	nephropexy, fixation or suspension of kidney	230.00
excision with removal sac and treatment of cavity	11.25	URETER: ureterotomy, with exploration or drainage	262.50
PILONIDAL SINUS or CYST: incision and drainage.....	6.25	ureterolithotomy, upper one third of ureter	287.50
excision, sample	32.50	BLADDER: aspiration by needle	3.75
NAILS: avulsion, nail plate, partial or complete,		by trochar or inter catheter	6.25
first	6.25	by insertion suprapubic catheter.....	22.50
second.....	5.00	cystotomy or cystostomy with fulguration.....	207.50
each additional	2.50	cystotomy with insertion ureteral catheter	157.50
excision, nail and matrix, partial or complete	35.00		
REPAIRS: simple, sum of length of repairs;			
up to 2.5cm	13.75
